Manufactured
with Stonex

Terran

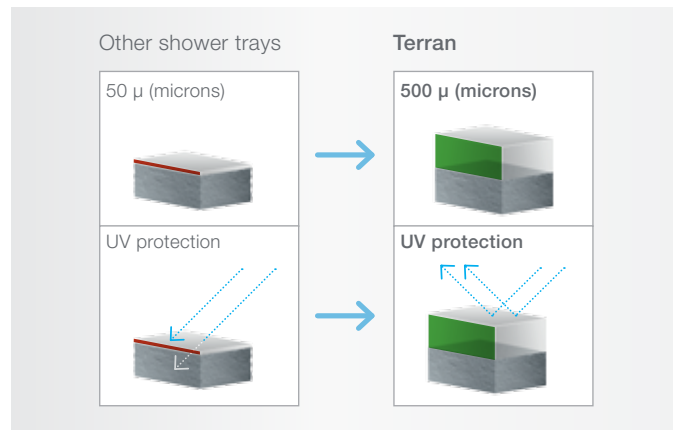

Manufactured with Stonex

The new Terran shower trays offer the very best in the latest trends of bathroom creation: design, functionality, adaptability, aesthetics and comfort.

Highest quality

The **Terran** shower tray is manufactured with a new material called **Stonex**, composed of an outer layer of high-quality Gel Coat ISO NPG and a resin substrate combined with a thorough selection of several mineral loads.

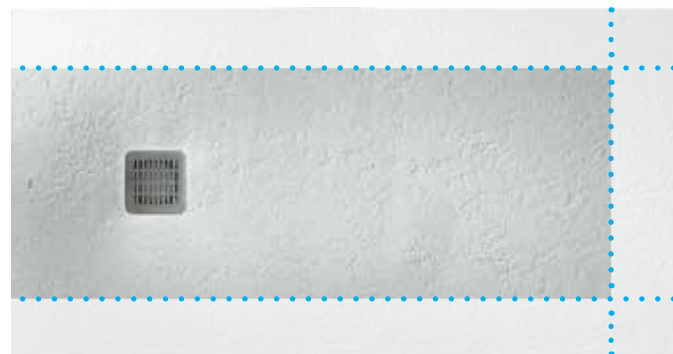

The result is a highly-efficient product against use wear, aggressive chemical agents or even before fading caused by sun rays.

Cut-to-size

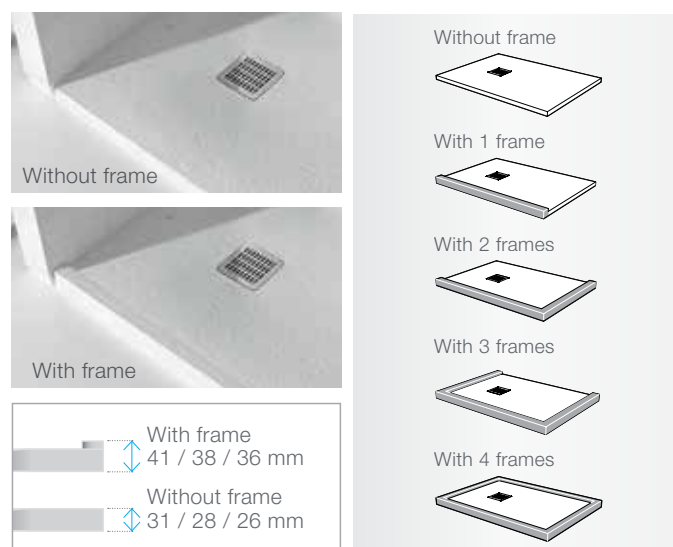

With the cut-to-size you can personalize the **Terran** shape so that it perfectly matches your shower space. Due to pigmented mineral loads being used, the color is uniform in all its section.

With the cut-to-size, the drain remains centered in its longitudinal axis, becoming aesthetically perfect.

Customized solutions

You can choose **Terran** with or without frame and customize it to your shower space, thanks to the different available installation options.

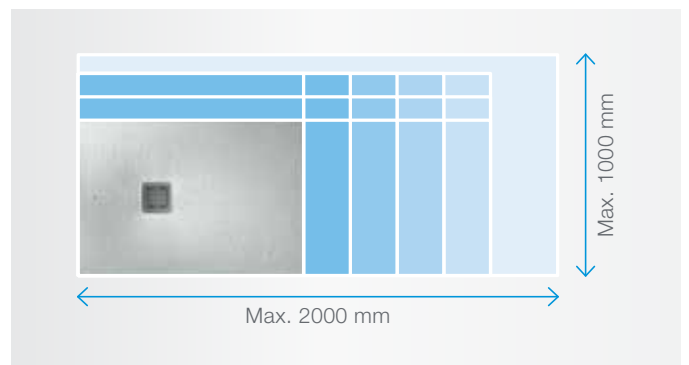

Novelty

King Size format

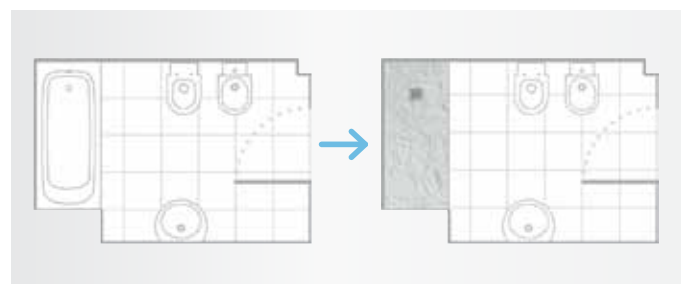

The **Terran** shower tray collection presents a wide range of sizes which, together with the possibility to cut-to-size, make it the most suitable to adapt in any space.

Besides, a new **King Size** of 2000 x 1000 mm is added to the range.

From bathtub to shower tray

Terran, in its big format, is the perfect solution to change the bathtub into a shower tray.

1 Terran 1400 x 700 shower tray, White finish / 2 Cosmo L2+LF shower screen / 3 Victoria-T shower column / 4 Element basin / 5 Thesis faucet / 6 Luna mirror with Delight lighting /

06 Terran 1400 x 700 shower tray, Chocolate finish.

Terran 1400 x 700 shower tray, Grape finish.

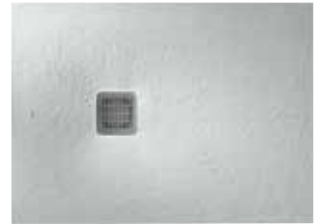

Exclusive color range

You can personalize your shower space with the exclusive color range of textured finish.

10 White

09 Off White

30 Cement

50 Cream

20 Slate

70 Grape

40 Black

60 Chocolate

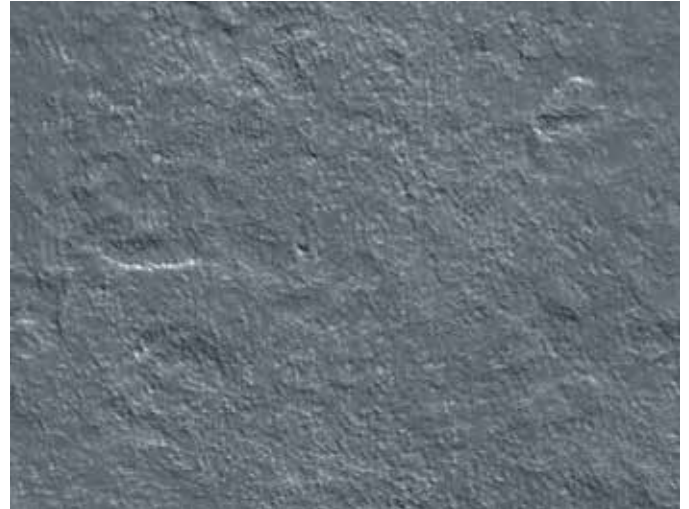

Terran 1400 x 700 shower tray, Cream finish.

Antislip

The textured finish provides the shower tray with a highly antislip feature (**C class**), achieving a great security during its use.

Moreover, it provides a very touch pleasant natural feel.

Inclination angle		DIN 51097 norm	
From 6° to 12°		-	
From 12° to 18°		A	
From 18° to 24°		B	
More than 24°		C	

Extraslim

Its perfect integration in the bathroom causes a pleasant aesthetic effect.

It facilitates the accessibility to the shower area, making it barrier-free.

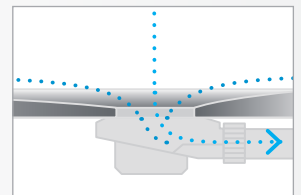

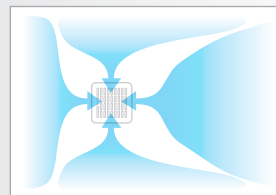

Easy access

Functional and comfortable

Terran has progressive drainage slopes (not uniform) designed to facilitate a fast water drainage.

It also has a high capacity drain (0,6 l/sec) facilitating a fast water drainage ensuring a great comfort and carefree experience.

Easy clean

The **Terran** shower tray is manufactured with a new material called Stonex, composed of an outer layer of high-quality Gel Coat ISO NPG and a resin substrate combined with a thorough selection of several mineral loads.

In the resistance tests against chemical and cleaning products, **Terran** offers excellent results against aggressive products such as hydrochloric acid, caustic soda, paint thinner, ammonia, betadine and others (see diagram). Cleaning with water is enough.

Resistance tests against chemical and cleaning products			
Exposure time: 24 h		Cleaned with:	
Product	Norm	Terran	Other shower trays
VINEGAR (acetic acid 10%)	EN 14527	Water	Water
CAUSTIC SODA (NaOH 10% m/m)	EN 14527	Water	Water
ETHANOL (70% v/v)	EN 14527	Water	Water
BLEACH (5% Cl ₂)	EN 14527	Water	NOT OK*
METHYLENE BLUE (1%) *	EN 14527	Water + Abrasive cleanser	NOT OK
SODIUM CHLORIDE (170 g/l)	EN 13310	Water	Water
BETADINE (povidone-iodine 10%)	Roca	Water	Water

Test procedure with cleaning agent from less to more aggressive, according to EN14527 norm.

NOT OK: It is not cleaned, or if it is cleaned the surface remains altered.

* Without problems in the 2h. test.

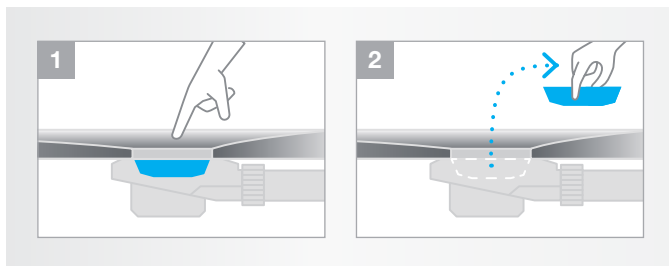

Lasting and resistant

The drain grid is manufactured from stainless steel (AISI 304), this guaranteeing a long endurance, always in perfect condition.

Punched hole

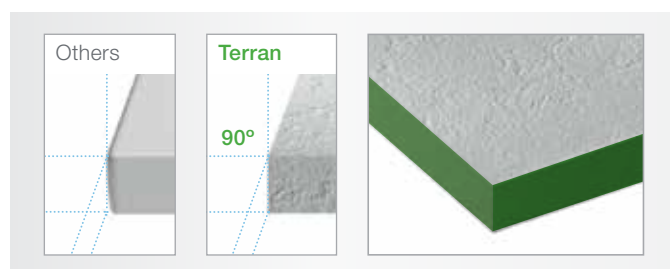

The drain syphon is in a pre-punched hole, being possible to extract it easily to avoid the double draining. It also includes a security receptacle to retain objects.

Unbeatable aesthetics

The corners maintain 90° in all their edges, so that fitting with the floor tiles and wall tiles is 100% perfect. The lateral sealing in the cut-to-size provides maximum security and endurance. In the floor-even installation the aesthetic integration in the bathroom space is guaranteed.

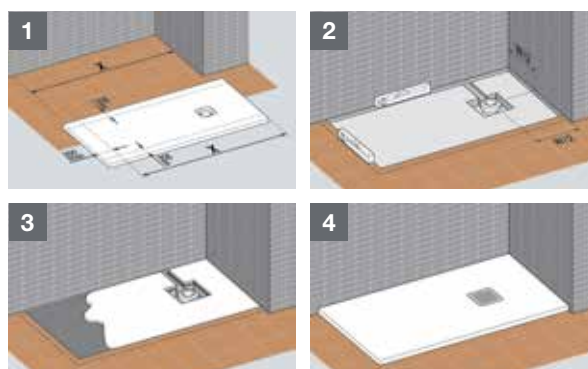

Perfect joints

The edges absolute lineality obtains a completely flat perimetral surface, guaranteeing a perfect joint between shower tray and shower screen, facilitating its installation.

Easy installation

Quick and easy installation, due to minimum pre-installation tasks required.
