New dual
installation system

Naray Standard

Sliding shower enclosure, with dual installation

Minimalist design

The **Naray** shower enclosure, with 6 mm thick tempered glass, provides a reversible sliding doors solution with a minimalist and modern design.

Naray for shower tray

2L2

L2-E+LF

L2-E

Without lower door guide

As it does not include a lower door guide, it offers a hassle-free access, making it easier to step into and out of the shower, and allowing comfortable cleaning of the floor areas.

Concealed bearings

The concealed bearing system integrated in the profiles avoids their contact with water, ensuring greater durability.

Door release system

It features a mechanism that releases the doors from the lower fastening to facilitate the cleaning between glasses.

Integrated robe hook

The integration of a practical robe hook in the shower enclosure enables you to have a towel or a bathrobe at hand.

Maxiclean

This shower enclosure features the Maxiclean treatment, which repels water preventing lime, salt and dirt from building up, apart from making cleaning easier and keeping the shower enclosure clean for

Dual installation

Two types of installation are available: with screws or with adhesive, to avoid drilling holes in the wall.

Reversible

Doors may be equally installed for left and right opening.

Without lower door guide

Upper profile (concealed bearings)

Door release system

Integrated robe hook

Install your Naray shower enclosure

1

Dual installation system

All profiles that need to be attached to the wall have a dual fixing system: with screws or adhesive*.

With the new installation system with adhesive you avoid drilling the wall avoiding possible breakages of tiles or boring of pipes.

Steps to follow for the installation with adhesive:

- 1- Clean and dry the area where the profile of the shower enclosure will be placed.
- 2- Remove the protections from the adhesive strips of the profile.
- 3- Place the profile with the help of a level and press for 1 minute.

(*) Not indicated for painted walls or walls with pronounced unevenness.

2

Open and Install

- 1- All the elements and panels are ready to be installed.
- 2- You only need to place the box vertically and start placing all different elements on the shower space.
- 3- As it does not need pre-assembly, it can be installed easily in reduced spaces.

3

No risk of breaking

The glasses have protected edges to avoid breaking during transport, handling and installation on the shower tray.

4

Easy and quick assembly

- 1- **Reversible:** it does not matter if the door needs to be opened to the left or to the right. It is fully reversible.
- 2- **Easy:** apart from having to use very few tools for the installation, certain components, such as the handle, are already pre-assembled.
- 3- **Without screws:** the fixed glass is attached with a glazing bead, so there is no need to screw on.
- 4- **More convenient:** it includes several pieces that enable you to open the guide to hang the door effortlessly.

5

Adaptable

- 1- **Telescopic guide:** the telescopic guide system allows an easy adaptation of the screen to the available space.
- 2- **Without tilting:** a simple leveling support enables a perfect horizontal alignment of the guide in a simple and comfortable manner.
- 3- **Perfect closure:** it is possible to easily adjust the tilting of the doors with just an Allen key.

Naray Standard

Sliding shower enclosures, with dual installation

Sliding doors

Naray 2L2

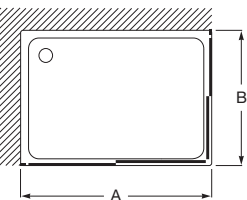

Corner entry with 2 sliding doors+2fixed panels.

These shower enclosures are made up of two references:
L2 and L2 (one for each side of the screen).

Height 1950 mm.

Ref.	Width (mm)	Installation dimensions
		Min.-Máx. (A y B)
AM14607012M	700	670 - 720
AM14607512M	750	721 - 770
